

CHASING
TROPHY
FISH

2018

Chasing Trophy Fish Lures are designed to be some of the most realistic lures on the market today. We developed a series of lures from stick-baits to swim-baits that are designed to target just about every freshwater species in North America. We have a selection of bass lures that are unmatched not only in their swimming action, but also their patterns. They have been proven to catch fish and were made to be durable for whatever species you are after! Each lure features CTF's "As Real As It Gets" process making them not only realistic in design but the swim action also!

Vaughn Holderman

VAUGHN HOLDERMAN, CTF FOUNDER

EOC 3.5

Every Other Cast 3.5" jerk-bait that dives 4-6 feet. This lure was designed to bring a realistic look and feel into the jerk-bait family. We took time to develop these to perfectly match fish like shad, shiners, and trout which are readily available prey-fish for bass, trout and other species to feed on in lakes, rivers, and streams. This lure has been tested and proven to work on a number of different species. We specifically designed patterns in this style to be deadly on numerous trout species. Rainbow and Brown Trout go absolutely crazy over this bait and bigger trout are readily caught on this.

Specifications

Body Length	Depth	Action	hooks
3.5"	Dives 4-6'	High Sus-pending	Nickel-Plated

Also available:

shad

pickerel

perch

shiner

PALOMINO

BROOK

TIGER

EMERALD

EOC 4.5

PICKEREL

SHAD

Every Other Cast 4.5" jerk-bait that dives 4-6 feet. This lure was designed to bring a realistic look and feel into the jerk-bait family. We took time to develop these to perfectly match fish like shad and shiners which are readily available prey-fish for bass and other species to feed on. This lure has been tested and proven to work on a number of different species. Largemouth and Smallmouth Bass are readily caught on this while Muskie, Pike and Walleye have also been know to hit them.

Specifications

Body Length	Depth	Action	hooks
4.5"	Dives 4-6'	Suspending	Nickel-Plated

Also available:

tiger trout

brown trout

palomino

brook trout

TOP DOG

Top Dog is our 4" stick-bait. This lure was designed to have a very heavy wobble and realistic look to it which gives a realistic impression of a fleeing baitfish. The bait floats to the surface when you stop reeling it in, which also helps in mimicking a fleeing baitfish. It dives 6-8 feet and has been very proven to catch many different species of fish including Bass, Walleye, and Trout.

Specifications			
Body Length	Depth	Action	hooks
4.0"	Dives 4-6'	Floating	Nickel-Plated

Also available:

shad

CRANKY BILLS

PALOMINO

SHAD

PEACH

Cranky Bills is our 2.75" square bill crank-bait. This lure can be a hot go to when fishing rock ledges and drops where you need a lure to dive deep fast. It dives 8-10 feet and has rattles inside that drive fish wild. Smallmouth and largemouth bass are the main target when using these but peacock bass have also been known to love these!

Specifications			
Body Length	Depth	Action	hooks
2.75"	Dives 6-8'	Floating	Nickel-Plated

LITTLE STICK

Little Stick is our 3" stick-bait. This lure was designed to have a very heavy wobble and realistic look to it which gives a realistic impression of a fleeing baitfish. The bait floats to the surface when you stop reeling it in, which also helps in mimicking a fleeing baitfish. It dives 6-8 feet and has been very proven to catch many different species of fish. This smaller style has been tested and proven to catch species like crappie, perch, trout, and bass.

Specifications

Body Length	Depth	Action	hooks
3"	5-7'	Floating	Nickel Plated

Also available:

pickerel

PERCH

SHAD

PALOMINO

LIVEWIRE SWIMBAIT

LiveWire 4.75 is our 4.75" wire-jointed swim-bait. This lure is a slow-sinking swim-bait that can be fished at many depths depending on how fast you reel it in. You can weight it and fish it deep or bring it right across the top of the water column. It has been proven and tested to work excellent when trolling in the great lakes for walleye. Muskie, Stripers, and other big fish also love this bait.

Specifications

Body Length	Depth	Action	hooks
4.75"	Varies On Speed	Slow Sinking	Nickel Plated

Also available:

shad

LARGE LIVEWIRE SWIMBAIT

Livewire 6.5 is our 6.5" wire-jointed swim-bait. This lure is a slow-sinking swim-bait that can be fished at many depths depending on how fast you reel it in. You can weight it and fish it deep or bring it right across the top of the water column. It has been proven and tested to work excellent when trolling in the great lakes for walleye, Muskie, Stripers, and other big fish also love this bait.

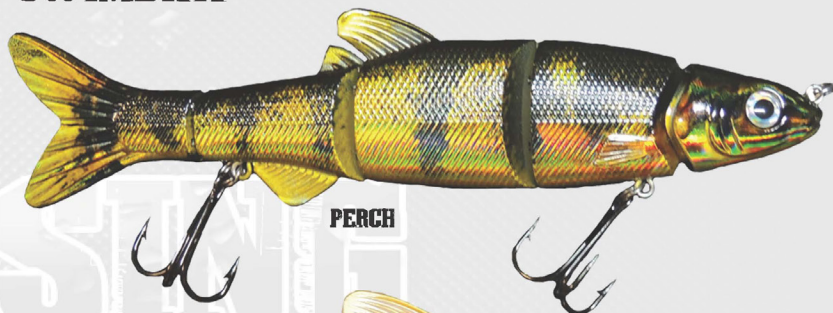

Specifications

Body Length	Depth	Action	hooks
6.5"	Varies On Speed	Slow Sinking	Nickel Plated

Also available:

shad

A person wearing a blue jacket and a grey beanie is standing on a large rock in a stream, fishing. The stream flows over several rocks, and there are fallen logs in the water. The background shows a forest of bare trees and a distant hill under a grey sky. The title 'CHASING TROPHY FISH' is overlaid on the right side of the image in a large, stylized font with a metallic, water-droplet texture.
